

SUBLIMATION GUIDE

DYE SUBLIMATION EXPERTISE

Dye Sublimation is the most detailed way to customize apparel, with the ink becoming part of the fabric, it leaves a very soft-hand touch to the garment. Sublimation printing is also very durable; images won't crack, peel or fade. Color remains vibrant even with extensive washing.

Images are produced using 4-color process, allowing unlimited colors and photographic-like images. Our presses are capable of spot color to all-over printing of a garment.
