# TOGETHER

## WE CAN DO ANYTHING

Giving Back has been part of the American Ad Bag culture since the company's inception in 1992.

**In 2020 we are taking the Giving Back philosophy global.** Every year, millions of tons of plastic enter the oceans primarily from rivers. Therefore, solving ocean plastic pollution requires a combination of stopping the inflow from rivers and cleaning up what has already accumulated in the oceans.

We've connected with the non-profit organization — **The Ocean Cleanup**, who has developed advanced technologies to rid the world's oceans of plastic. The goal of **The Ocean Cleanup** project is to tackle the 1,000 most polluting rivers, responsible for about 80% of ocean plastic pollution, before the end of 2025. This is a huge task, but the organization is committed to making it happen. Together we can assist in this great endeavor.

With EVERY sale of washable paper products, we will donate a percentage to help rid the rivers and oceans of plastic and to ensure that generations to come will have clean and safe water. **Look for the "Give Back Product" logo on qualifying products — Pages 8-13.**

## Our Commitment...

We are proud of our QCA accreditation. It validated what we have been practicing and conforming to throughout American Ad Bag's 28-year history. It demonstrates our strong commitment to product quality while maintaining our focus on safety, social compliance, environmental stewardship and supply chain management. We continue to invest resources to ensure that our customers have complete confidence in our products and the people who produce them. Below is a snapshot of our best practices in each of the areas for QCA certification.

### PRODUCT SAFETY

For all of us in the promotional products industry, this is the most important aspect when choosing products for our customers. The QCA designation proves that we are in compliance with product safety including the following:

- Materials used meet all regulatory requirements.
- A documented protocol for assuring continuous updates to product safety documentation should any issues arise.
- Annual testing of all of our products.
- A documented protocol for traceability down to all components and raw materials to enable a recall to be implemented should the need arise.
- Accountability at the Senior Management level for all safety and compliance related issues.

### PRODUCT QUALITY

Quality is extremely important to American Ad Bag and we do everything in our power to produce high quality products. From raw material choices to superior workmanship, American Ad Bag takes quality very seriously. To ensure the quality of our products, we have implemented the following:

- A documented protocol for assuring continuous adherence to quality and performance standards.
- A procedure to communicate expected adherence to product production requirements and performance standards.
- A documented supplier selection program for both our material suppliers and service providers.
- We constantly monitor existing procedures and make efficiency changes when required.

### ENVIRONMENTAL STEWARDSHIP COMPLIANCE

We only have one earth and here at American Ad Bag, we strive to provide the most eco-friendly products. From reusable to recyclable, our products are always chosen with the environment in mind. This designation also entails a documented protocol to ensure a healthy work environment both in our own factories and in those in which our materials are produced.

## Quality Certification Alliance

Quality and Safety. Delivered.

Additionally, we are able to distribute a restricted substance list, created by QCA, to our supply base as part of an ongoing education effort to make manufacturers aware of substances that are regulated, restricted and banned by the U.S. government and state agencies.

### SOCIAL COMPLIANCE

We are committed to ensuring the health, safety and labor standards and ethics for our own employees as well as those working for our materials suppliers. We have implemented policies, procedures and protocols that effectively address local and national laws as related to labor compliance issues.

### SUPPLY CHAIN SECURITY

As part of our QCA accreditation, we are required to provide a documented procedure that applies to all members of our supply chain and their headquarters. Other facets of this requirement include the following:

- Having a documented mechanism for recruiting and identifying our workforce.
- A documented protocol for controlling entry and exit from the workplace.
- Restricting and controlling access to all of our information technology platforms.

Our QCA rating provides the following to you as our customer:

- Assurance that the products you sell your customers are safe and of quality material.
- Assurance that all of our products meet all applicable regulations.
- Superior workmanship throughout our supply chain.
- Our sincere commitment to providing affordable, quality and safe products to you and your customers.

# BAGS

A landscaper was exhibiting at a regional home & garden show and needed bags to hand out that would hold his company brochure, a landscaping magazine that had a feature article about his company, seed packs, custom notepads and a pen. After listening to all that the landscaper wanted to put inside the bag, plus what his budget was, his distributor recommended the 12BD1822. He pointed out that at trade shows you want to go with a bigger bag so that all the smaller bags being handed out by other exhibitors get put inside his larger bag. It was also recommended imprinting on both sides so that when being carried, the company name would be seen. The distributor also pointed out that this bag was made from OXO film. Once it's discarded and exposed to oxygen and the outdoor elements for an extended period of time, the bags will degrade and disappear over a 12-18 month period, which reduces your environmental footprint. The show and all of his handouts were a big hit. The larger bag did exactly what it was suppose to do...hold all the other exhibitors' bags INSIDE his large bag. The landscaper sent his distributor a picture from this show with all the people going down the aisles carrying his bag. He had a 35% increase in leads and after the show he placed another order for bags so when his sales team makes calls, they can leave behind a bag of promotional products.

# Delivering Solutions with

# HALLOWEEN

## & AWARENESS & EARTH DAY BAGS

A local recreation department was in charge of the city's annual Halloween costume contest. This annual event brought hundreds of children dressed in their costumes along with their parents and grandparents to the city's downtown area. The recreation department wanted to step-up the event by providing Halloween bags for each child. They met with their promotional consultant and she suggested that they get a sponsor for the bag. Since most of the children after the contest head out to the neighborhoods to continue trick or treating, she suggested silver reflective die cut bags — 13HG1215, 13HF1215 or the 13HH1215.

The promotional consultant suggested approaching a local bank or fast-food restaurant. She explained that not only would the sponsor get exposure at the costume contest but suggested that the sponsor purchase extra bags to be handed out to customers who go through the drive-thru or come inside to the lobby.

The recreation department director made a call to the bank president. She loved the idea and purchased an extra 500 bags in addition to the 1500 bags needed for the contest.

Both the bank and the recreation department received great positive feedback. After the event, the bank said to count on them next year as the sponsor.

# Global Creative CENTRE

WHERE INSPIRATION KNOWS NO END

An upscale day spa, which was increasing its market share in a large metropolitan area to 10 locations, was introducing a new line of products that clients could purchase after they received their spa treatments. They wanted it packaged in something more than the traditional euro tote they'd been using. They wanted to step it up. They met with their promotional consultant and brainstormed ideas.

After the initial meeting, the distributor teamed up with American Ad Bag's Global Creative Centre to continue the discussion. The team created a trapezoid euro tote with matching kraft handles to give it an upscale, natural look along with custom-printed tissue paper with a scattered imprint to complete the total branding.

Because of American Ad Bag's expertise working with our certified offshore factory partners we are able to offer creativity in package style, imprint options, and materials from paper, plastic to non-woven. Our Global solutions team will assist you with your design, offering options and solutions. Our logistics team will work with you getting your order delivered to your customer in the most economical way. Take these options and solutions to your customer and become the expert.

### Shipping Method | Preferred Carrier UPS

For best service, please specify your "in-hands date" and requested shipping method on purchase order. American Ad Bag's goal is to ship the least expensive method while meeting your "in-hands date."

Our primary carrier is UPS, and as such, they are the last truck to depart our facility each evening. If you request a different shipping method/carrier and your order cannot make their cut-off time, we will ship UPS and invoice for shipping. If no carrier is specified on your order, UPS ground will be used.

Both UPS & FedEx are scheduled for daily pick-up. Other carriers will be scheduled for the next day after schedule date.

A shipper account number resulting in ANY CHARGE BACK to American Ad Bag due to an invalid shipper account, a refused charge, or an incorrect shipping address will incur a \$25/case admin fee, plus any additional related shipping charges incurred by American Ad Bag. This will be invoiced separately.

## PACKAGING & SHIPPING | Continued

### THIRD PARTY & CUSTOMER DESIGNATED SHIPPERS

On all third party shipments, complete billing information required including account number, company name, address and phone number. If you provide a 3rd party account number or designate a specific carrier, you assume responsibility from the time the order is ready for pick-up and are responsible for any lost or damaged goods or delays.

### INTERNATIONAL SHIPMENTS

For shipments outside of the USA (including Puerto Rico) will require a 3rd party shipper number.

### EXPORT DOCUMENTATION

\$35 (G) (except Canada) Prices do not include duties, taxes, broker fees or freight.

## PRODUCT INFORMATION

**BAG DIMENSIONS** | May vary +/- 1/2" to 1".

**BAG COLORS** | Colors can vary by dye-lot. Small variances in color are not considered defects. Due to the nature of the materials and the variance in manufactured products, we cannot guarantee exact matches within orders or on repeat orders. Like-named colors on different materials may not be an exact color match. ## PRODUCT SAFETY

### CPSIA

American Ad Bag products are designed, intended and offered for sale as advertising and promotional products for corporate and business uses. As such, they are "general use" products. If a general use product is decorated with children's images and the end-user group is a children's group, then the product could be considered a children's product. If you consider your order to be for a children's product, it is important that you notify us at the time your order is placed so that we can let you know if we are able to fulfill it.

### CALIFORNIA PROPOSITION 65 LABELING

California Prop. 65 is a local law that requires warning label if a product exposes customers to a list of over 800 chemicals. We perform extensive 3rd party lab testing on products, raw materials and inks (surface coatings) to ensure that all products comply with Federal regulations and CPSIA. It is the distributor's responsibility to notify American Ad Bag if a client requires a Prop 65 Label. Please contact [compliance@adbag.com](mailto:compliance@adbag.com) for additional information.

### QR CODES

QR Codes print best in black ink on a smooth white surface. American Ad Bag cannot guarantee that the QR Code will be readable on all items or on all units in a production run. Distributor is responsible to confirm the code/link is correct and active.

### ARTWORK TRANSFERS

Artwork cannot be transferred from one distributor to another without written permission from the original distributor or the owner of the original artwork.

### FONTS

All fonts must be converted to outlines prior to submitting purchase order. By failing to do so, there's a risk that when we open your art file, the non-converted font will default to a very plain font and your artwork will not be produced as desired.

### PLACED/IMPORTED IMAGES

Scanned images (.jpg, .gif, .bmp, .tif, .psd) do not always give the best imprint even at higher resolutions. In addition placing, linking, embedding or copying these images into a drawing program will not convert them into vector art and will not produce a quality imprint. Placed images in your Illustrator file will delay your ship date.
