The HUSKY Sonic Weld **NON-WOVEN**

We are pleased to introduce the latest evolution in the non woven bag design. With clean lines, clean shapes, sized to fit a variety of daily functions and aggressively priced, the sonic Weld non-woven is the next generation .

- Available in 16 sizes and multiple colors.
- Constructed with 80 GSM, non-woven material and either sonic sealed seams or sewn seams. See description by each bag size.
- The 10 x 10 + 10 and the 12 x 14 + 10 are ideal for both groceries and food service because of their wide access at the top.

See Pages 3-7.

Design your custom non woven bag in a few easy steps!

The Basics:

Construct your customer's non woven bag overseas to create that perfect custom piece. Custom Non Woven bags create that dynamic impact and impression that is sure to set your customer's brand apart from their competition. Whether they are looking for unique graphics, shapes, color combinations or simply looking to save money while creating an item true to their brand identity, the custom non woven is a perfect option. The best part is, they are available in a 500 bag minimum. This will allow your client to try something new with no risk or big commitment.

Now, let's get to the fun part and design your bag!

- Determine your size, style and shape
- Material color over 50 stock colors or we can PMS match at 5m and up
- **Do you want sewn seams or sonic weld?**
- Determine the number of print colors

How many print colors ?
1-5 sides available

What handle type; nylon web handle, non woven material or die cut?

Will there be a closure added?
Snap, button, Velcro and zipper closure available

Will it be insulated?

Do you want a poly liner to prevent leakage?

Will there be grommets, bottom boards or pockets?
Items like hang tags or printed inserts can be added.

Multiple trim color, handle color, different color material panels and bag shapes are always free.

Poly bagging-tags printed inserts available

With over 20 years of importing expertise, we are happy to help and assist with any needs through-out the order process. From assisting in design work, spec samples, expedited production and delivery or drop shipping and fulfillment, we are motivated to ensure the order process is always a success.

All custom non woven bags are made overseas.

Standard production times are 8-10 weeks after approval of proof.

All orders will receive an electronic proof and a physical spec sample to sign off on prior to production. Rush services and expedited delivery is available.

Imprinted artwork of logos, with and without trademarks, copyrights and registration marks, are shown in this catalog to illustrate our decorating capabilities only and are NOT for sale. Logos appearing on products in this catalog do not represent an endorsement of that particular product or any products in the catalog.

By submitting order and artwork to Bulldog Packaging, customer represents that the use or display of artwork will not violate any applicable laws or client restrictions, and hereby agrees to defend and hold Bulldog Packaging and its officers, shareholders, employees and agents harmless from and against any claims, damages and costs, including attorney's fees and costs, in any infringement actions as a result of printing the artwork.

Digital Art

The best and highest quality imprints are made from VECTOR ART created in Adobe Illustrator. Vector art is created in a graphics program and consists of vectored shapes. These graphics contain crisp, smooth lines that will keep their sharpness and proportions when sized/edited.

Note: Scanned images (*jpg, gif, bmp, tif, psd*) do not always give the best imprint even at higher resolutions. If you are including images, they need to be hi-res black and white tif or eps files. In addition, placing, linking, embedding or copying these images into a drawing program will not convert them into vector art and will not produce a quality imprint.

Programs and Formats

For best results, please submit VECTOR ART Illustrator CS6 or lower—Save as editable eps

Fonts

Fonts MUST be converted to outlines or curves. In the case of Quark, MAC fonts need to be included when e-mailed. Be sure to send both the screen and printer fonts. DO NOT send PC fonts—we are not able to use them. If your file contains PC fonts, it is necessary for you to convert to paths, curves or outlines before e-mailing file. Delays to your job could occur if you send PC fonts.

**Submitting Digital Art**

Media: ZIP disk or CD. Please supply a hard copy of art along with ZIP disk or CD.

E-mail: Import/custom art files to:

brian@bulldogpackaging.net

Domestic art files to:

jill@bulldogpackaging.net

When e-mailing artwork, the PO# MUST be in the subject line of the email. If your PO# is not listed, your order can get delayed unintentionally.

Please send a fax of e-mailed artwork so we can determine the accuracy of your electronic transmission. Please specify on your purchase order that you sent electronic art and list e-mail address that you sent art to. This will help prevent delays in your order processing.
