Variations

- Cut and registration variance not to exceed 3/32".
- Due to variations in inks, materials, and press runs, colors may not match previous orders exactly.
- Due to the shrinkage of material during the screening process, copy may not be perfectly centered or registered on each magnet. This applies to all magnets.
- Due to the shape of the circle/oval magnets, all copy will not be perfectly centered on each magnet.
- Magnet LLC™ has automated equipment used for efficiency in our folding processes. A 1/16" tolerance (+/-) may be needed to allow for the folding.
- Due to the nature of the substrates, adhesives, and materials, total material thickness may vary by up to (+/-) .003 from standard.

Magnets And Labels For Outdoor Use

See pages 48-53 for outdoor magnets and pages 54-55 for outdoor labels. All other magnets and labels are not intended for outdoor use and qualify for different material.

Removable Adhesive

Recommended Surfaces: Wood doors and desks, stainless steel, plastic and vinyl, computers, glass windows and mirrors. Labels will be removable for 3 to 6 months.

DO NOT PLACE ON PAINTED WALL OR WALLPAPERED SURFACES.
NOT RECOMMENDED FOR OUTDOOR USE.

Label Rewind Direction

ART REQUIREMENTS

Please submit original art files to: orders@themagnetgroup.com.

Include your purchase order number and company name in the subject line. If revised art is sent, it is the customer's responsibility to advise Customer Service of the new art. **Changes to previously sent art must be sent to Customer Service to ensure use of new art.**

We accept electronic artwork on CD, DVD and e-mail (file size permitting). We have an FTP site available; please call for log-in details.

Acceptable Programs For Artwork: Adobe Illustrator, Adobe Photoshop, Adobe Acrobat, and Adobe InDesign

Acceptable File Formats: AI, EPS, INDD, JPG, PDF, TIFF

- Adobe Illustrator vector artwork is preferred. Convert all text to outlines.
- Photoshop – PSD, EPS, TIFF, and JPEG files must be 300 dpi or higher at 100% final size. If supplying image files, fonts need to be rasterized.
- All RGB colors must be converted to CMYK for four-color process production.
- Be sure to send all linked files, including all TIFF and EPS files for artwork placed in your document, even if previously embedded, as well as all printer and screen fonts.

Please NOTE: Artwork with tight registration, halftones, and bleeds need to be reviewed by our Art Department.

We do not accept: GIF files, Quark, PageMaker, Freehand, Corel Draw, Microsoft Office Documents, Photocopies, business cards, faxes, etc.

Type Size: Minimum 6 point. Small registers/trademarks with fine lines may appear as a dot on product.

Serif Fonts: Please avoid using fine serif fonts. These fonts are usually too thin and fill in or lose detail in the printing process. Avoid using serif fonts in four color reverse copy areas.

Line Thickness: Minimum .5 point. For reverse copy or art, minimum 1 point.

Bleed: Art intended to print to the edge must extend 3/32" outside cut line. Art not intended to print to the edge must remain 3/32" inside cut line.

EXCEPTION: Double-Sided Magnets bleed must extend 1/8" outside cut line. Art not intended to print to the edge must remain 1/8" inside cut line.

Imprint Area/Live Copy: Due to variances in cut, all copy must remain 3/32" inside cut lines. **EXCEPTION:** Double-Sided Magnets copy must remain 1/8" inside cut lines.

Halftones: Halftones are made up of dots and are not recommended for type.

- **Digital art:** Halftones must be between a 5% to 90% screen. Watermarks between 80% and 100% screen may not print.
- **Silk Screen art:** Halftones must be between a 30% to 70% screen. Avoid graduated halftones.
- **Offset art:** Gradient halftone range 2% to 100%. Screen tint range 10% to 90%.

Colors:

- **All Art:** All RGB colors must be converted to CMYK for four-color process production.
- **Digital art:** Metallic and fluorescent colors are not available.
- **Car Magnets:** Fluorescent colors are not available. Metallic colors are not recommended on silkscreened car magnets. Fluorescent and metallic ink colors fade faster than other colors when used outdoors.

Silkscreen Art Requirements:

- **Butt register** not recommended. Please call for assistance
- **Trapping:** 1 point minimum. If art is too fine, we will overprint. Trapping may cause a color change where colors meet.
- **Overprinting:** We use UV inks, which are somewhat translucent. When overprinting 1 color on top of another the appearance of colors may change. Keep this in mind when creating fine details. Black, however, will cover everything.

Art Charges

If art requirements are not met, art time will be billed at **\$40.00 (X) per hour**. Factory WILL NOT be responsible for charges due to "clean-up" or "rework" deemed necessary to meet production standards.

Typesetting

We will typeset up to 3 lines for FREE. All other typesetting (including copy changes, postcard copy, curved copy, schedules, and word magnets) will be billed as needed at **\$40.00 (X) per hour**. The typestyle must be indicated, or it will be left to the discretion of the typesetter.

Artwork Storage

Artwork will remain on file for 2 years. You must resubmit art after that time.

PMS Color Match (Non-Stock Colors)

Exact PMS color matches are not available on items in this catalog printed in four-color process. For requested color matches, we will use the closest CMYK equivalent possible. For specific PMS color matches, please contact Customer Service. (Metallic and fluorescent colors are not available for digital four-color process imprint. For these options, contact Customer Service.)

To ensure repeat orders match the previous color, material specs, etc., please refer to previous order number. **Due to variations in inks, materials, and press runs, an exact match to previous orders is not always possible.**

STOCK IMPRINT COLORS with NO PMS Color Match/Mix Charge

Please note "STOCK colors" on your P.O. to avoid a PMS color match/mix charge. If a non-stock color or PMS number is listed, the requested color will be used and a PMS charge will apply. **PMS Color Matches are not guaranteed due to variations in inks and raw materials. Lamination may also slightly alter color(s). We will use the ink color requested and match as close as possible.**

Because the colors below are printed in four-color process, they are not exact representations of the colors used.

PMS Color Match:

\$18.75 (G) per color match.

Copy Changes:

\$20.00 (G) per color, per side, per version in EQUAL increments, unless otherwise specified on product page. Catalog minimums apply per version.
