Plush toys aren't just for kids. They can appeal to a wide audience and help to strengthen a brand by connecting on an emotional level. Many car dealerships recognize that plush toys are important in helping them achieve a remarkable customer experience, keeping them top of mind with their customers and showing they appreciate their business. Customers tend to keep a branded plush toy for a number of years and, during that time, a dealership's brand and message are exposed and reinforced repeatedly.

Decked out in an easy to embroider machine knit sweater, our 11" plush animals are cute and classy! Machine knit sweater available in beige only. 100% polyester plush and 100% polyester filling.

11" Plush Collection

Every year, the Calgary Hitmen have a teddy bear toss in December and fans are encouraged to bring teddy bears or other stuffed toys to the game, and throw them onto the ice when the home team scores its first goal. The toys are gathered up to be donated to charities and hospitals within the Calgary area and, in many cases, the players themselves personally deliver some of the toys.

Iconic Electric and Controls sponsor a lounge at the Saddledome arena and support this fun event by inviting clients and donating plush toys for them to toss on to the ice. They select from our 11" Plush Collection, which look stylish and adorable in a hand knit sweater embroidered with their logo.

Hand knit sweater is available in beige and black.

Bill Helin (Welaaxam Yout) is Tlingit, Tsimshian and Norwegian. Born in the Northwest Coastal community of Prince Rupert, BC, Bill spent countless hours listening to his grandmother as she taught him the many legends and songs of the Tlingit and Tsimshian people. Bill has captured the essence of these legends in a series of books and his "Culture Crew" and friends have been brought to life as quality plush toys.

**The Bill Helin Collection is ideal as gifts for aboriginal communities and their respective organizations and events.**

**Minimum order 600 pieces. Offshore production – 90 to 120 days.**

**11" Plush animals, priced from \$11.17 (C) each.** Pricing includes full color digital heat transfer print on front or back of a t-shirt. Or embroidery up to 10,000 stitches directly on the plush animal. No set up charges apply.

Custom plush toys can be designed from an existing brand character or mascot. Or created from a unique concept to bring an entirely new idea to life, and give a company a mascot with a personality that connects in a memorable and engaging way with customers, children, fans or staff.

### 1 - Send us the design...

### 2 - Receive a quote...

Plush pricing depends on:

- Character design and pattern complexity
- Size of plush
- Fabrics chosen
- Detail (clothing, embroidery, printing, plastic parts, etc.)
- Tags and packaging
- Quantity

For custom plush 6” or larger, we can make as few as 1,200 pieces.  
For smaller than 6”, minimum is 2,400 pieces.

### 3 - Plush toy prototyping...

Once we are given the go ahead, we create a prototype sample.

**Pricing is \$416.67 (C) per design.**

The plush prototype starts from a pattern based on the character’s artwork, design decisions and material preferences. From the pattern a hand-made physical custom plush is created, which is sent to our customers for feedback. There may be several revisions to the prototype sample before final approval and the process can take **2 to 6 weeks**.

### 4 - Toy making time...

After the plush toy prototype sample is approved, fabrics and materials are ordered and manufacturing begins using the pattern made from the approved prototype sample. Each plush is individually made by hand, hence no two pieces will be exactly alike.

**Dependent on complexity of design and quantity, production is 90 to 120 days.**

### 5 - Quality control...

Before being packed to ship, the plush toys are checked for quality assurance. Standard plush toy testing includes placing all toys through a metal detector to ensure no lost sewing needles make it into the toys.

All our plush toys are tested by certified toy testing labs that perform U.S. CPSIA or Canada CCPSA tests, dependent on where product is being delivered. And other tests as required by each country and region to meet federal and international safety standards.

Furthermore, every effort is made to safeguard against any safety concern that is not covered by current regulation.

Custom Programs

### A CHEO tradition...

To raise funds during their annual telethon, a different CHEO bear is designed each year.

### Custom Squeeze Toys

A fun and colorful way to give your brand some character

### Transform your design into a handheld squeeze toy.

These can be made to look like nearly anything you can think of. Whether you want to create a custom mascot for an event, or a replica of a company's product for a great trade show giveaway, or have a different idea altogether; the only limit is your imagination.

- Offshore production - 90 to 120 days.
