

**Just a quick note to remind/ask/plead/beg you to stop into our virtual booth sometime during the upcoming virtual trade show.**

**I won't even get into rehashing the year that was 2020, but as we all (hopefully) begin the slow steady return to whatever will be the new normal, I suggest that now more than ever it is imperative to choose your supplier partners carefully.**

**Dependability. Longevity. American Made. These are the cornerstones of what our company is all about. Since 1947 we have been guided by our core values and serving this industry. Our belief is that as distributor and supplier we are a team, united by the common bond of working towards your client's ultimate satisfaction.**

**I invite you to stop by our booth and check us out. We have a few new twists on selling PPE, some videos to watch, and we might even throw in some virtual popcorn.**

**Let's do some business together!**
