A Timeless Imprinting Technique
Embossing is a specialized artistic technique that is preferred by many consumers because embossed folders offer a different tactile experience than printed or foil stamped folders.

Style A
Desert Haze

Style L

Style Y
Black Felt

How to Order Embossed Folders

Please contact us to receive a quote on your embossed folders.

We will determine the cost of your embossed folders based on the criteria listed here.

Logo detail on Burgundy Felt paper stock

Blind Embossing

This is our most affordable and popular option. Blind embossing means your image is simply raised off the paper one flat level—without any extra foil or printed artwork. It's a subtle effect that works well for any logo.

Reverse-Outs

We can emboss reversed-out logos and artwork, but avoid fine details as those might not transfer.

Artwork Size & Complexity

Your price depends largely on the size and complexity of your artwork. For instance, small, complex logos can cost more than a slightly larger, yet simpler logo.

Pick an Appropriate Paper Stock

The complexity of your artwork will dictate the type of paper stock you can use. Logos with fine details show best on smooth or glossy paper stock. While you can emboss on any paper stock, fine details might be lost on textured papers like black weave or corduroy.

Preferred Applications

Adobe® Illustrator®
Adobe® Photoshop®
Adobe® InDesign®
QuarkXPress®

Media

CD-ROM
USB Drive

Digital File Formats

We prefer Illustrator vector art. Accepted file formats include EPS, press-quality PDF, TIFF, JPG, BMP, and PSD. Please keep layered Photoshop files intact. We also accept:

Photos: Send photos in TIFF format and scanned in at 300DPI at full size.

Line Art: Art should be created in a vector art based program such as Illustrator. If this is not possible, submit Bitmapped scan at 800PPI.

Vector Art: Vector art is made up of curves and points and has no placed or raster graphics.

Raster Art: Raster art is made up of tiny boxes and arranged on pixels per inch (PPI; some refer to this as DPI). We prefer that all raster images come to us at a resolution of 600-1200PPI at printed size.

Art Charges: Cleanup of artwork will incur an additional charge of \$71.00/hour (D) with a minimum charge of 1 hour.

Color

We only use a CMYK/spot color space, not RGB. All single color jobs should be provided to us in black and white. All multi-colored jobs should be sent in vector format with the appropriate spot/process color selected.

Fonts

When creating art, please create outlines in Illustrator for your fonts or send the full font for printing purposes.

The Use of Web Art

Artwork used on the internet is meant for viewing only. The images on web sites have been scanned at 72PPI and are not intended to be printed. We cannot accept these images for print reproduction.

Artwork Hints & Tips

High-resolution artwork will produce the best imprint quality. Here are some easy and helpful hints for creating high-resolution art:

Quark Xpress or InDesign Hints

Specify all colors as PMS spot colors or CMYK; exactly the way you want them printed. Keep images at 100% whenever possible to avoid changes or errors.

Illustrator Hints

Use CMYK color code and specify your colors either as PMS spot colors or CMYK to ensure that you get the colors you are expecting.

Photoshop Hints

Please send black and white art files at the size they are to be printed. Resolution should be 600-1200DPI. Continuous Tone Images should be at 300DPI and at the correct sizes to be printed. Lower resolutions may result in loss of quality.

Acrobat Hints

Please submit file exactly as it is to be used for positioning, size, colors, and bleeds. Fonts should be outlined before making the PDF file whenever possible.

Art Solutions

Warwick has a fully staffed Art Department with many years of experience to help you. If you cannot supply us with satisfactory art, we may be able to assist you. Please call Customer Service for assistance. Art charges may apply.

Foil Stamping Guide

Foil stamping is a combination of heat and pressure along with an etched magnesium plate to seal in your foil imprint. For the highest quality stamp, send in black and white line art. Please note that foil stamping may cause fine detail or screens to fill in and change your image.

This logo includes shading and beveled edges, which we cannot foil stamp.

✓ Good Artwork
Good art includes no fine lines, shading, or screens.
