OUR COMMITMENT TO PRODUCT SAFETY AND COMPLIANCE

Jornik has invested numerous resources to create a very robust product safety and compliance program to protect your company, your customers' important brands, and consumers' health and safety. We are committed to testing our products beyond the mandatory requirements of CPSIA, Cal Prop 65 and other product safety regulations with the goal of providing you with the ultimate confidence in our products and our compliance program.

All toys and children's products are tested by thirdparty testing labs using the highest standards to provide us with a greater degree of comfort and confidence that our products exceed the most stringent requirements. All art materials such as crayons and pencils are reviewed by a certified toxicologist and are thoroughly tested to meet LHAMA and ASTM D-4236 standards for safety. All of our decorating inks are from the industry's best ink makers and we ensure that those inks exceed all federal and state regulations so that you don't have to worry about toxic lead, cadmium or other heavy metals in our inks. Lastly, our packaging materials are tested to ensure that the materials used to make our boxes, cartons and bags are safe for consumers and the environment.

Please ask us if you have any questions or needs for current third-party test reports for any of our items. We will be happy to assist you.

Our Swed-ISH Dishcloth is made from part natural fibers and part sponge.

These are a reusable, biodegradable and sustainable, cross between a sponge, a paper towel and a dishcloth.

Bee's Wrap® is made with certified organic cotton that is coated with sustainably sourced beeswax, organic jojoba oil, and tree resin. The result? An easy, reusable, all-natural way to store food.

Bee's Wrap is a washable, reusable, and compostable, fully sustainable, alternative to plastic wrap.

*As a proud B Corp and certified Green America company, Bee's Wrap is committed to social change to help better the lives of our customers, employees, community, and planet. Bee's Wrap is actively working with partners such as 1% for the Planet, The Bee Cause, The Rozalia Project, and National Geographic, pledging their support to ocean conservancy, beach cleanups, and environmental stewardship.
