Die Struck Medallions

Our minting process insures a finished product of heirloom quality. Steel dies made in our state of the art die shop are used to mint medallions with refined detail. Die Struck Medallions are produced in sizes from 2.25" to 3.00" diameter in varying thicknesses to match budget and design.

Cast Brass Medallions

Our Cast Brass Medallions are crafted with dramatic relief and high detail using the centuries old lost wax casting process. Available in sizes from 2.25" to 4.00" diameter or equivalent free-form or geometric shapes with standard 1/4" rim thickness. A high impact commemorative and recognition quality product ideal for lower quantities.

Spin Cast Medallions

Pewter Medallions

Skilled craftsmen spin cast lead free and fine pewter alloys for our award winning medallions. Available in sizes from 2.25" to 6" diameter or equivalent free-form or geometric shapes with a standard 3/16" rim thickness. Ask for 2D IMC Express for fast delivery. Brass or copper finish optional.

Zinc Alloy Medallions

Our value zinc alloy offers an economical alternative to pewter. Available up to 4" diameter or equivalent.

Pewter Stand Up Medallions

Spin cast using lead free pewter, Stand Up Medallions include feet on the reverse side that allow for a free-standing commemorative, gift or award. Ideal for depicting landmarks, historic sites, products, vehicles, buildings or even renderings of buildings yet to be built. Our "City Series" collection features 18 stock designs.

Die Struck Coins

Die struck for elegance and refinement using steel minting dies produced by American artisans in our state of the art die shop. Die Struck Coins are offered in 1" - 2" sizes in varying thicknesses.

Pewter Coins

Spin cast for speed and flexibility, Pewter Coins are available from 1" – 2" round or equivalent free-form shapes. Dramatic and detailed 3D bas-relief tooling or speedy 2D IMC Express tooling options present Pewter Coins as an excellent choice.

Award Medals

Award Medals are used by many organizations for a variety of purposes. We leverage our full complement of processes in order to meet budget, delivery or quantity requirements. Included neck ribbons available in a choice of colors and color combinations.

Key Tags

Key Tags are a classic promotional product. We spin cast in lead free pewter or zinc alloy for speed and flexibility, we mint key tags in brass, nickel silver or copper for refined elegance and we cast via the lost wax method in brass for drama. A wide variety of size and shape options as well as no-charge rush service and high volume capability.

Die Struck Buckles

Our die strike process produces a buckle of heirloom quality. Steel minting dies made in our state of the art die shop are used to die strike buckles with refined detail. Die Struck Buckles are produced in brass, nickel silver or copper in multiple sizes and shapes. Yearly Numeral Inserts available for continuity programs.

Cast Brass Buckles

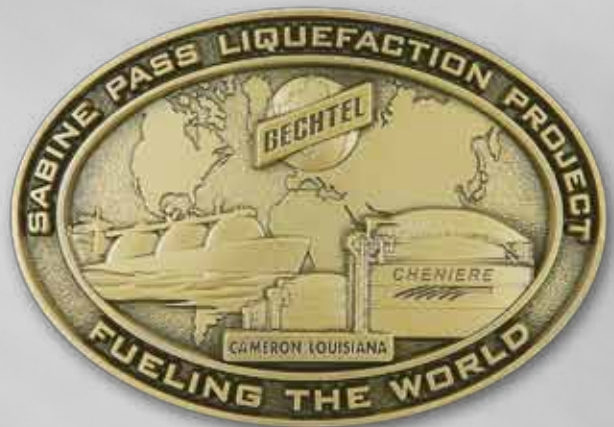

Our Cast Solid Brass Buckles are crafted with dramatic relief and high detail through lost wax casting. Offered in multiple size families with free-form and custom shapes. Lost Wax Cast Brass Buckles present a lifetime buckle of heirloom quality.

Spin Cast Buckles

Our most popular buckle, Spin Cast Buckles are cast in lead free pewter for a timeless look. Multiple size options in standard or free-form shapes with dramatic relief and detail. Choose IMC Express for quick turn to meet tight deadlines. Ask about Buckle Pack, an ideal packaging/presentation/display solution.

Branding Irons

Our Branding Irons are cast in solid brass with a natural hardwood handle and rawhide hanging strap. Each comes up to temperature quickly when placed into charcoal or the flame of a gas grill. Available with optional handle imprint or as part of a gift set. Stock initial irons also available.

Coasters

Mark the occasion, not the tabletop! Executive Coasters include a cork bottom and are produced in lead free pewter or value zinc alloy. Boardroom Coasters include a bright nickel plated housing with a lead free pewter or zinc alloy insert, Limestone Coasters are offered with a choice of insert styles. Coasters are available as singles or in sets of 2 or 4.

Lapel Pins

Promote, commemorate or recognize with domestic made lapel pins. Choose from fast and flexible spin cast pins, refined and elegant die struck pins or cast brass and precious metal pins. Our USA ColorQuick Lapel Pins are produced with 3-5 day turn.

3D Print & Cast

Emerging 3D print technology opens up new commemorative, recognition, and promotional possibilities. Working from photos or other reference materials including customer supplied STL files, our digital sculptors and technicians create CAD files required for the additive manufacturing process. The 3D printed model is used to create molds for casting in pewter or brass. Our 3D Print and Cast process is ideal for the creation of replicas, awards, promotional gifts, or custom crafted products.
