• Shape can be customized to fit your brand.

GLASSWARE NOT INCLUDED.

***Due to imperfections and weathering of the wood used to construct the plywood, each sign will have unique coloration. We cannot guarantee Pantone color matches as the natural wood will absorb the ink and manipulate the finished color.

Standard background colors available for CAN12 Signs.

White   Natural Aluminum

Please provide clean vector art. All colors must be Pantone Matching System (PMS) for spot color art or CMYK (not RGB) for 4 color process art. Please provide a composite jpeg with emailed files to ensure artwork has not been corrupted. Please take note of the slot or hole placement so that artwork does not interfere.
Templates can be found on our website: www.dixiline.com/pages/templates.

Vector art is an editable contour line drawing or typeset copy usually created in a professional graphic program such as Adobe Illustrator, CorelDRAW, or Free-hand. The artwork remains crisp and clear when enlarged or reduced. Raster art or bitmaps (jpeg, gif and bmp) become pixelated when enlarged or used for printing.

Our preferred graphic program is Illustrator CC. If available, please send files in their native format (gradient fills can be corrupted when exported as or .pdf files). However, .pdf and .eps files are often usable. Uncommon fonts must be converted to curves or outlines.

Please include P.O. # or design description in the file name when e-mailing artwork. It will help us locate your art.

Please specify Pantone Matching System (PMS) colors or spot colors, not CMYK or RGB colors. Although not guaranteed, we will try to match PMS colors as closely as possible.

When a requested background color is unavailable, we will reverse-out, which means printing a product with a particular color up to the embossed border (1/4" from the edge of plate). See River Wilderness plate on page 3. Borders of plates and signs are always embossed whether painted or not. This ensures rigidity and durability.

Ordering information

Normal production time: Approximately 4-6 weeks after art and credit approval. FOR RUSH SERVICE: Approximately ten working days after proof and credit approval. Call for current production schedule and rush charge.

Prices: All prices are USD and FOB 30084 (GA). Products with different copy may not be grouped for combined quantity price. For quantities falling between pricing breaks, use smaller quantity pricing. Returned check charge is $35.

Proofs: Presentation paper proof $20.00(z) mailed, $10.00(z) faxed or first proof e-mailed free, plus cost of artwork. Additional e-mailed proofs for same order or additional proofs for same project is $10.00(z). Proofs must be ordered for new orders requiring copyright or trademark licensor approval.

Artwork: No artwork charge if supplied with color separated, professional, computer ready artwork. Factory supplied artwork for proof or production will be billed at cost. See above for guidelines.

Colors: Basic prices include choice of one standard background color and one imprint color. Add extra charge for each additional color. Call for pricing when varying imprint colors on an order. Add $0.05(z) per item for halftones. Most Pantone Matching System(PMS) colors are available. Although not guaranteed, we will try to match PMS colors as closely as possible.

Reverse-out: Print background colors other than standard background colors to within 1/4" of edges of plate.

Bylines: Add $0.05(z) per item.

Overruns and underruns: All orders are subject to 5% over or under run.

Exact run charge: Please add 5% to the cost of your order for exact quantity to be shipped. No exceptions.

Shipping: See product specs for shipping weights (FOB 30084). Normal shipping will be by least expensive method unless otherwise directed. Sorry, no COD shipments permitted.

Packaging: See product specs for individual packaging options.

Order issues: Any order discrepancies must be reported within 60 days from receipt.

Drop shipments: Orders shipped at one time to one or more destinations are $5.00(z) per additional destination. Larger items will incur additional charge.*

Split shipments: No split shipments on orders less than 5,000 plates. Orders can be held up to 6 months free of charge, but entire order will be billed at time of initial shipment.

COMPUTER ART FILE GUIDELINES

Delayed shipments: If held over sixty days, orders will be billed at price that applies at time of shipment.

Cancellations: Orders are considered firm and cannot be canceled without written authorization from factory. Any art and production costs incurred at that point will be invoiced accordingly.

Changes to orders: All changes to orders must be requested in writing and will be acknowledged by authorization from the factory. Increases in orders will be treated as separate orders unless notification is received prior to production of original order.

Trademarks: Distributors along with their clients and customers must obtain proper authorization to use any and all trademarks presented to us for reproduction. We can assume no liability for any disputes arising out of any unauthorized use of trademarks presented to us for reproduction.

4 COLOR PROCESS ART SPECS

Acceptable file formats are tif (preferred), pdf, and jpeg with a minimum resolution of 300 dpi. A black and white vector file must also be supplied illustrating embossing detail.

Embossing Vector File:

If your design requires a die-cut shape or is printed to the edge of the plate or sign, please include a 1/4" bleed to image supplied for cut area.
Pantone matches will be made as close as possible with CMYK colors.
When designing your artwork, we require that your document settings are set to CMYK . Please use only CMYK color palettes in your design. This will reduce any art or color issues when converting from RGB to CMYK.

Designed in RGB.

Converted from RGB to CMYK.

To avoid major color conversions, please create your design on a CMYK platform.
*** For the best black output, we recommend setting your CMYK black to C:40 M:40 Y:40 K:100.

UPC / licensed product label: A licensed product or UPC label can be affixed to each product. Please call factory for pricing.

***Royalty items, which DIXILINE is licensed to produce, will incur a surcharge. Call factory for royalty surcharge %. Proof of license or Trademark License Indemnity Agreement must be presented to
DIXILINE for any exceptions to surcharge.

WOOD
Due to imperfections and weathering of the wood used to construct barrel heads and plywood each sign has unique coloration. We cannot guarantee Pantone color matches as the natural wood absorbs the ink and manipulates the finished colors

When requiring a specific route shape, a one color vector line art of the shape is needed.

Wood signs are recommended for indoor usage and not in areas of moisture, water, or rain.

*Illustrations of logo, trademarks or designs on products in our catalog do not necessarily imply endorsement of those products. They merely indicate our manufacturing capabilities.
