

**FLUIDSTANCE®**

## We Bring Life To Work

At FluidStance, we create premium, eco-friendly products to enable happier and healthier work experiences. Mixing our passion for life, movement, and adventure, our team aims to provide the best tools for productivity by focusing on:

- Design: we prioritize simple, clean design using high quality materials, building products to last.
- Sustainability: from the materials we select to the manufacturing processes we employ to the location of the vendors we use, the environment is top of mind and a key driver of every decision we make.
- Balance: we strive for balance in life, finding the sweet spots between work and play and the grind and the flow.
- Wellbeing: our products keep you moving, make you feel happier and more comfortable, help you remove clutter and stay organized, and overall feel better and more productive at work.

FluidStance products are the perfect accessories for companies who value and prioritize these same tenets, and who seek to encourage and facilitate them for their clients, customers, partners, and employees.
