### Digital Printing with Enhanced Raised Foil

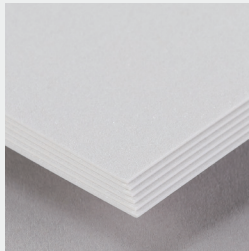

Here we've taken premium digital print products and added Enhanced Raised Foil. This innovative process adds a dramatic layer of metallic foil, which results in a raised effect that pops off the paper and gleams in the light. Unlike traditional foil stamping, Enhanced Raised Foil can be printed on both sides of a card — look for the 2-sided foil designs!

### Paper Stocks

These save the dates are printed on 120 lb. white smooth paper. Two other paper stocks are available as upgrades online including a magnetic stock! Magnets are offered in the A2 size only.

WHITE SMOOTH  
120 LB.

WHITE SHIMMER  
105 LB.

MAGNET  
(BACK)

### Sizes and Envelopes

Large (A7) cards and Postcards feature 2-sided digital printing, and select designs feature foil on both sides. Small (A2) cards and magnets do not feature printing or foil on the back. White euro-flap envelopes are included, excluding postcards.

### Trim Options

Enhanced raised foil items are only available with the following trim options: square (no additional charge) and rounded corners. Our newest items are also available with deckle and arch trim options.

Look for the new design icon.

\*Note: Arch trim is not available for horizontal cards.

### Thermography or Foil

Choose the design and the print process! Few things shine with the same brilliance as traditional foil stamping, and thermography offers a fabulous raised feel that mimics the look of high-end engraving.

### Paper Stocks

Choose from four different paper stocks, all proven to complement thermography and foil stamping beautifully.
