Our Slide sizes are general and are based on men's US sizes; womens sizes subtract 1 size to get our size. Our slides are whole sizes and true-to-size so the best fit for someone who wears a half size will be the size up (ex. size 8.5 should order size 9). The slides are more narrow vs. wide so those with a wider foot should size up 1 size. Please refer to the chart above to match the correct size by measurement to the shoe imprint. Use "Our Size" when ordering.
