# We bring you the world of opportunity. Quite literally.

## Design to Deliver

We handle everything from concept to manufacturing for teams, creators, brands and communities that care about design, quality and sustainability. We'll incorporate your graphic elements, colors, brand guidelines, and corporate culture in ways that cannot be achieved with off-the-shelf apparel.

## Research and Development

Research is at the core of our designs and we always have the end user in mind. To meet your exact needs, we will work closely with you to choose the right materials and components and provide photo realistic mockups to help you visualize how the product will look and feel.

## Prototype and Quality Assurance

Once you've selected the designs for production, we'll create prototypes made to ensure that every detail is exactly as expected. Each product is rigorously tested to ensure it meets top quality standards and your performance expectations.

## Custom Colors

We will match all components, materials and embellishments to your specific brand guidelines using sustainable dyes, inks and applications.

## Sourcing

Exclusively curated and mindfully sourced, we've partnered with a global network of premium and sustainable suppliers to match your exact needs with the exact right source.

# PERSONALIZE YOUR BRAND.

## Even our fabrics are custom made to order.

We work closely with our textile mills to create custom fabrics suited to your exact needs. Whether your product calls for a specific weight, drape, stretch or performance characteristic, we build to suit using a palette of sustainable fibers and yarns from both natural and synthetic sources.

Color can be applied to fabric and trims in a number of ways and we'll determine the best option for your exclusive custom apparel. We can Pantone match and custom dye any garment to match your brand, using sustainable dyes. Once we have a sample of your fabric, we perform a variety of tests to ensure the highest quality product, even after washing and heavy wear.

When it comes to decorating apparel, we want your brand to get noticed. If you can dream a design, we can create it. From 3D applications, embroidery, appliques, laser etching – we can do it all!

TRUE  
CHAMPIONS  
OF  
SUSTAINABILITY.

## Strong partnerships.

In 2005, EdwardsX introduced the first sustainable collection of stocked fabrics in the promotional products industry. Our collection consisted of soy, bamboo, and organic cotton fabrications along with RPET (recycled) polyester fabrics. We continue to evolve our sustainable material offerings by continually sourcing better yarns and fabrics from leading suppliers. We offer a wide range of high-quality materials that are great for your people and the planet.
